

snooza™

Introducing our new Aussie made, plant-based

Clean & Care Collection

Effective cleaning and training solutions that
are safe for your pet, your home and our planet

AUSTRALIAN MADE

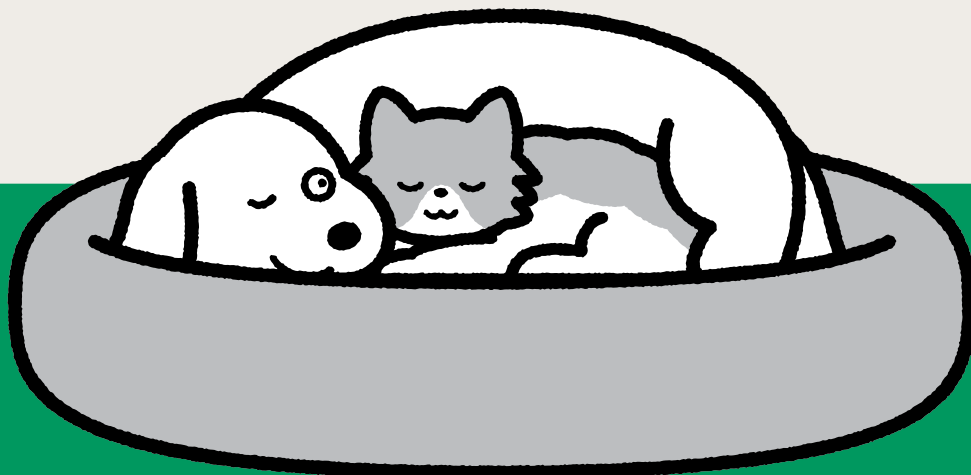

snooza

Aussie Made Oops and Training Solutions!

For years, most pet related cleaning products have been manufactured abroad, using single use plastics, where products that are mainly water with harsh chemicals are shipped across the globe.

We have long thought that there should be a better way, so we set out to create **plant-based formulations for cleaning and training**, that could be manufactured locally, in bottles that are 100% recyclable.

Snooza Clean & Care Collection

Plant-based & plant-powered

We've designed a number of dog and cat specific products, that are all plant-based and plant-powered, for effective and safe use with your pets and in your home. We also have a plant-powered liquid bedding wash and bedding refresh spray, so you can maintain your Snooza clean and hygienic.

Bottles are HDPE2 certified

We've designed bottles that can be packed and shipped efficiently and will display in store beautifully, with distinct colours and labelling. Our bottles are also 100% recyclable, as they are HDPE2 certified.

**100% recyclable
