

NUTRITIONAL MILK FOR CATS

A delicious daily nutritional milk that complements a balanced diet by providing additional nutrition every day.

WHY SHOULD I GIVE THIS TO MY CAT?

UNLIKE OUR NUTRITIONAL MILK FOR ANIMALS, THIS IS AN EVERYDAY NUTRITIONAL MILK DESIGNED TO COMPLEMENT A COMPLETE AND BALANCED DIET.

Daily Nutritional Boost

Even cats receiving a complete and balanced diet can benefit from additional nutritional support. Formulated with 25 essential vitamins and minerals, taurine plus omega-3 from flaxseed. This helps support everyday wellbeing, vitality, and a healthy skin and coat.

Digestive Support

With added FOS prebiotics and fibre from flaxseed, this blend of soluble and insoluble fibre provides a delicious and easy way to support beneficial gut bacteria, digestive health and regular bowel movements.

Healthy Ageing Support

As cats age, changes in mobility, muscle condition, and vitality can occur. It provides quality protein, collagen peptides, and 25 essential vitamins and minerals to support healthy ageing, muscle strength, joint health, immune function, and everyday wellbeing. Gentle on digestion, it provides additional nutritional support when ageing pets need it most.

Hydration

When served as a milk drink, mixed into kibble or wet food, this is a simple and delicious way to encourage fluid intake while delivering essential nutrients including mineral electrolytes. It can be a convenient option for cats that don't drink enough water or require support to maintain hydration.

Meal Enhancer

Perfect for fussy eaters, it enhances the flavour of kibble or wet food. This makes mealtimes more appealing while adding variety and extra nutrition to your cat's daily diet.

Daily Serving Guide

Serve as a delicious milk drink alongside your cat's daily diet, or mix into food to boost the nutritional value of their meal. Use the scoop provided and always prepare with safe drinking water.

Weight of animal	Scoop	Water Volume
0-4 kg	1/2	30 mL
5-9 kg	1	60 mL
10 + kg	1 1/2	90 mL

FAQ'S

IS THIS A KITTEN MILK REPLACER?

No. This is a daily nutritional milk for cats from 8 weeks and up.

CAN IT BE SERVED EVERY DAY?

Yes. It's formulated for everyday use as part of a balanced diet.

CAN I GIVE THIS TO MY UNWELL CAT?

Always seek advice from your vet. This is not a therapeutic supplement. It is designed as a daily supplement for healthy cats in addition to their diet.
